Position Vacancy Announcement

If you have questions, concerns, or issues, you may contact the **Air AGR Manager at 701-451-2662**.

SPECIALTY SUMMARY:

Plans, provides, and evaluates routine patient care and treatment of beneficiaries to include flying and special operational duty personnel. Organizes, coordinates, executes, and evaluates nursing activities in the medical environment. Performs and directs support activities for patient care situations, including contingency operations and disasters. Flight and Operational Medical Technician (FOMT/4N0X1F), Aeromedical Evacuation Technician.

DUTIES AND RESPONSIBILITIES:

2.1. Provides, supervises, and manages patient care of beneficiaries to include flying and special operational duty personnel. Performs nursing tasks. Acts as Patient Centered Medical Home member or team leader. Front-line preventionist who identifies potential health risks and provides preventative counseling. Performs paraprofessional portions of preventative health assessments and physical examinations. Monitors and records physiological measurements. Orients patients to the hospital environment. Admits, discharges, and transfers patients as directed. Reports and records observations in patient progress notes and team conferences. Performs portions of medical treatment, diagnostic, and therapeutic procedures. Cares for, observes, and reports on pre/post-operative, seriously or critically ill, and injured patients. Records treatments and procedures rendered and observes effects. Performs postmortem care. Identifies patient problems and assists in developing and evaluating patient care plan(s). Assembles, operates, and maintains therapeutic equipment. Provides field medical care in contingency operations, disasters and austere environments. Performs basic life support, tactical combat casualty care (TCCC) and triage in emergency situations. Serves as member of primary emergency medical response to installation 911 Emergency Medical Services (EMS) response, in-flight emergencies, medical/trauma emergencies, and potential mass casualty scenarios for on- and off-base incidents. Operates emergency medical and other vehicles. Loads and unloads litter patients. Participates in contingency or disaster field training, exercises, and deployments. Augments search and rescue flying squadrons. Obtains and maintains linen and supplies/areas. Disposes of medical waste. Maintains inpatient and outpatient medical records. Screens medical records for deployability and other medical administrative requirements. Prepares and submits administrative reports. Manages supplies and equipment, submits, and executes budgets. Coordinates medical service activities with execution and clinical management teams. Utilizes the nursing process for promoting and maintaining patient health. Provides disease and disability education, care, and evaluation of nursing care. Participates in and leads the planning, implementation, and evaluation of nursing care. Performs assessment and analysis of patient health status, identifies health goals, recognizes subtle changes in conditions, interprets these changes, and immediately determines appropriate course of action. Participates in critical appraisal of pre-appraised evidence (such as clinical practice guidelines, evidence-based policies and procedures, and evidence syntheses).

2.2. Supervises personnel, conducts training, and creates duty schedules. Schedules and/or conducts in-service training on procedures, techniques, and equipment. Schedules and/or conducts periodic disaster training and evacuation procedures. Provides training to medical and non-medical personnel; training may include areas such as emergency services, TCCC and required basic and or advanced life support training.

2.3. Performs Flight and Operational Medicine Clinic and Base Operational Medicine Clinic duties. Assists flight surgeon with aircraft mishap and physiological incident response, investigation, and reporting. Supports flight surgeon to develop flying safety and deployment briefings. Assists healthcare provider teams with interpretation and application of medical standards to determine medical qualifications for all medical clearance reviews. Provides administrative management of duty limiting conditions reports. Assists with oversight of waiver management utilizing the Aircrew Information Management Waiver Tracking System (AIMWTS). Maintains grounding management on all aircrew assigned utilizing the Aeromedical Services
